Little Planet is a beautiful and tiny world where special stones known as the Time Stones are found. The Time Stones are powerful gems that are capable of controlling the passage of time. The evil Dr. Eggman had his eye on these stones all along, ever since the planet appeared on the last month of the year. Upon locating the Little Planet, Dr. Eggman and his robot cronies immediately set about converting the world into a giant fortress. But Sonic arrives onto the scene to stop Dr. Eggman from taking all the Time Stones that will allow him to manipulate time and conquer the world.

Travel through the past, present and future of each Zone and find Dr. Eggman's latest invention – Metal Sonic. Dr. Eggman will also make an appearance at the end of every Round.
